Rank:
1

Overall carbon footprint emitted (in grams of CO₂) per passenger kilometre

Bicycles and walk have zero or clearly lower carbon footprints than any other type of transport. Start using your bike and walking more often to a healthier lifestyle. Join an organisation or a campaign that works for the zero carbon emission cause and help creating a better street-environment for cycling and walking.

Rank the different types of **transport** from 1 (least) to 5 (most) based on the amount of greenhouse gases emitted by:

- Airplane
- Car
- Bus
- Train
- Bicycle/Walk

Discuss with your group what types of transport have the lowest and highest carbon footprints and why.
